

LP4

More Information

SEMI-AUTOMATIC BOARD WASHER

with cylindrical rotary brush with board return

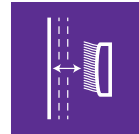

BENEFITS

Motorised board conveyor

Rotary brush drive motors protected by stainless steel casing

Side brush positions can be adjusted to board width

Built-in pump for closed-circuit cleaning water

TECHNICAL DATA

FRAME

- Length According to length of boards
- Width 1'080mm
- Height 1'840mm

BOARDS

- Length of boards dès 1'400 mm
- Width of boards 250 to 440 mm
- Board thickness 20 to 40 mm
- Speed of treatment approx. 200 boards / hour

WATER

- Rinse water circuit connection GEKA quick coupling
- Closed circuit pump flow 2400 l/h

ELECTRICAL

- Power supply 3 x 400 VAC + N + PE /10A
- Installed power 4.2kW

Note: The values shown above are indicative only and can be adapted according to each customer-specific needs.
